Concert A Success

The musical concert given Tuesday evening at the Christian church by the choir under the direction of Mr. Matkins was a decided success.

Every number of the program was rendered with one exception. The different numbers showed that much time and attention had been given them for they were rendered with ease and accuracy.

The vocal solos by Mrs. A. D. Roberts and Miss Sarah Thompson were splendid; both displaying a natural talent for solo work.

The readings by Margaret Stouffer and John Irwin were very entertaining and well given. Mr. and Mrs. Frank Smith's duets were very pleasing indeed. Mr. Smith also rendered an excellent selection on the cornet.

That Mr. Matkin is a musician of great ability was shown in the rendering of a piano solo, "The Mountain Stream." The chorus work by the choir was a very pleasing feature of the evening's program.

Mrs. Meyer, Miss Ruth Glenn and Mr. Frank Smith gave several good orchestra selections which were very much appreciated.

Mr. Matkins entertained the choir and those who had otherwise assisted for a short time after the program. Light refreshments were served.

R. H. Malone received a message yesterday bringing the sad intelligence that his brother-in-law, I. D. Row, of Salina, had passed away the day before. Mr. Row had been stricken with paralysis about a month ago. Mr. Malone will be unable to attend the funeral.

Liberal cleaned up on the Texhoma aggregation in last Sunday's ball game to the tune of 7 to 1. Some fast and furious playing was done by the Liberal boys, and Goodman, the famous Texhoma pitcher, was put out of the running in five innings. It was a good game and a large number of Oklahoma people were here to see it.

WANTED—RECRUITS

The Army of College Graduates—the Army of Peace—needs recruits. "The core and heart of the work of the American people is more and more done by this little army of 240,000."

The Kansas State Agricultural College can give you high rank in this army. It offers to high school graduates four-year courses in Agriculture, Veterinary Medicine, Engineering, Home Economics, General Science and Industrial Journalism.

The School of Agriculture, admitting students of common school certificates, offers three-year courses in Agriculture, Mechanics and Home Economics. Short courses are offered for farmers, mechanics and housekeepers.
